Cyberspace Usages - Challenges and Dispute Resolution

Joint Seminar organised by the UIA, UIA India Chapter and the Inter-Pacific Bar Association (IPBA)

Introduction

Cyberspace has become a necessary part of everyone's every day life. The growing importance and significance of the Internet have not only resulted in radical changes to the social context and behaviour in the last decade, but have also brought along numerous challenges to legal thoughts, approaches and systems. All of them were inexperienced before. The related issues are and were the origin for a broad variety of thoughts and initiatives.

The seminar's goal is to highlight, present and assess some of the pertinent current legal approaches towards the cyberspace and its challenges. A particular emphasis will be on ways to cope with the unpredictabilities and particular legal risks of cyberspace. Aspects of contract law, criminal law and approaches for dispute resolution will be addressed with a national, regional and international point of view.
